

FC12-D

Introduction

FC12-D multi-biometric time & attendance and access control terminal supports up to 3,000 face templates, 2,000 fingerprint templates and 10,000 cards. With latest hardware platform and algorithm, it offers brand new UI and user-friendly operation interface to provide smooth user experience. With advanced face algorithm and multi-biometric verification technology, the terminal's security level of verification is significantly enhanced.

Features

- Optional built-in battery backup, providing approximately 4 hours of continuous operation.
- New Framework firmware, easy to extend functions and customize client's requirements.
- One face template is registered for one user only.
- Able to detect whether the face is an actual face or a photo, enhancing the security level of verification.

Specifications

Face Capacity

3,000 faces

Fingerprint Capacity

2,000 fingerprints

ID Card Capacity

10,000 cards

Transaction Capacity

100,000 transactions

Authentication

Facial/Finger/PIN/Card

Network Interface

TCP/IP, USB

Display

4.3-Inch Touch Screen

Operating Voltage

12V 3A

Size

193.6 x 165 x 111mm (W×H×D)
