

FC13-D

Introduction

FC13-D is a time attendance and access control terminal for face and fingerprint verification. Using latest highspeed face recognition algorithm, it has extremely high verification speed and low error rate, and is able to effectively prevent duplicated registration. With its high-resolution infrared night vision light and professional color duo camera, the terminal can carry out quick verification in any environment. What is more, it supports face, fingerprint, user ID, password, RFID card and various combination methods, in order to satisfy the demands of different users.

Features

- Effectively prevent duplicated face registration
- Multiple Verification Modes.
- Good Performance in Dark Environment, Infrared optical system enables machine to work well at night
- Built-in auxiliary input with enhanced flexibility to link with wired detector or emergency switch

USB Download

Facial/Finger/PIN

Strong Material

Fast Network

Specifications

Face Capacity

1,500 faces

Fingerprint Capacity

4,000 fingerprints

ID Card Capacity

10,000 cards

Transaction Capacity

100,000 transactions

Authentication

Facial/Finger/PIN/Card

Network Interface

TCP/IP, USB

Display

2.8 inch TFT LCD Color Screen

Operating Voltage

12V 3A

Size

83 x 181 x 61 mm (W×H×D)
